

Dynaforce Group is the Wellness industry's market leader in Asia, supplying unique gym and spa equipment and solutions to our customers. With offices and staff in several countries in this region, we are driven by one main goal: to promote Wellness through physical exercise and uplifting rejuvenation.

Since our founding in 1989, we have evolved from just promoting Fitness, which is more about sculpting your body, to our current focus on Wellness, which promotes holistic well-being, achieving a balance of the body, mind and spirit.

We are grateful that the business community has acknowledged Dynaforce's contribution to the regional economy by selecting our company as an Enterprise 50 and SME 500 company for business excellence.

WHAT WE DO

We offer the most comprehensive range of innovative fitness equipment, flooring and services for commercial and home use. This is complemented by our avant garde and award winning line of spa equipment and products.

We also offer design and consultancy advice to ensure our customers are aware of prevailing wellness trends and can use the latest innovations to achieve their wellness goals. Then we supply them with the best mix of wellness equipment and system to meet their budget and help them turn their concept to reality. They can then enjoy their wellness journey, knowing that they are in good hands with our prompt and reliable after sales service.

To help our customers to make full use of their purchases, we also offer continuing education of best practices conducted by both local and foreign experts at our own Wellness Academy in Singapore.

Finally we are constantly on the lookout for opportunities to contribute to community health, as we have done in the past with bespoke active ageing programs in neighborhood gyms as well as assisting charitable organizations to help the less fortunate to keep fit and stay healthy.

OUR BRANDS

Technogym fitness equipment is the preferred choice of the leading hotels and clubs in the world for their designer look, superior functionality and reliability. They are so effective and easy to use, that champion sportsmen have depended on them to achieve sports excellence at the past 5 Olympics.

Starpool takes you into the world of elegant, luxurious and innovative spas with its award winning designs and innovative spa cabins. Its unique spa systems can be found in many top resorts worldwide.

FENDI

Fendi, the name synonymous with unabashed elegance, has presented an exclusive collection to furnish a stylish outdoor patio. It is named “Fendi Outdoor Furniture Collection” and includes modular sofas, armchairs, chaise lounges, sun beds, tables and coffee tables in handmade woven fabrics.

DEDON

Dedon, the only woven outdoor furniture brand that owns and controls the fibre and furniture production, creating open-air living rooms all around the world.

This timeless indoor rower is probably the most simple and complete total body conditioning machine around. This non-impact and space-saving rower is perfect for the home and clubs. No wonder Olympic rowers prefer Concept 2.

TOTAL SPA SOLUTIONS

Starpool of Italy is the global leader in the design and supply of hi-tech and eco-friendly spa equipment and systems. Starpool epitomizes the true meaning and power of design that has made Italy a world leader in innovation, yet always mindful that the aesthetics of a spa equipment or cabin is never independent from its function. With intensive research and partnering with renowned designer like Cristiano Mino, Starpool has created a unique collection of modular spa equipment called the Sweet Collection. Attention to details is expressed in the harmony of the lines, combined with the application of colors through the discreet use of lights in conjunction with music therapy and aromatherapy, all the while with a focus on human wellness and the environment. Our team of designers and craftsmen combine their expertise in harnessing the different temperatures and forms of water with the art of sublime relaxation to create unique spa solutions.

Starpool spa systems always incorporate innovative design, materials and technologies to ensure superior functionality and heightened experience for our customers.
