**About the Festival:**

The Italian Festival in Thailand is organized by the Embassy of Italy and comprises this year more than 50 cultural events that take place throughout the year in Bangkok: classical music, opera, jazz, seminars, cinema, dance, promotion of the Made in Italy and a lot more. The Festival is organized with the aim of spreading in Thailand the best of the Italian culture. Indeed, we believe that the cooperation among the two countries develops through the mutual understanding and appreciation of each other's heritage and cultural identity.

Now at its 12th consecutive edition, the Festival has received positive reviews throughout the years, and an ever growing recognition from the general public.

All the events are organized thanks to the contribution of many private sponsors and are free entry upon registration.
